Hamburg, Janry. 19. 1848.

Dear Sir,

Awaiting my last respects in your hands, dated the 13th ult.o, I regret to be till now without any answer on my letter of March and therefore being certain, you don't wish to make use of my tender, I beg to inform you that Messrs. Perthes, Besser & Mauke will correspond with your wishes in every regard, as they gentlemen are the first booksellers at this place, who put off books in barter through the whole world. I pity to loose a friend as you, but hope you will yet further show me your confidence.

Inclosed I take the liberty to hand you ct. c. of 1848. Please to examine it and to carry forward the balance £ 7. 7. to new account in my favour, as to give me advice if our books are conform.

Adjoining my congratulations for the change of the year I am

Dear Sir,

Acknowledging the receipt of your kind favors the 18th & 22d. ult. by Brig Jenny, I beg to inform you, that I distributed the contents of the case, sent to me by the same vessel as to your order and thank you very much for your having paid the sum of my draft to Messrs Wiley & Putnam; I hope on arival of this the same will already have been presented.

The arangement to avoid sending drafts back and forth as your proposal to have some funds in my hands, will likewise be very agreable to me and I return you my best thanks for the confidence you show me.

With ugard to your demand, to put you in communication with an active bookseller of this place for being able to order books from time to time and to have others here on sale, I beg to request you to trust such affairs to my care, as being very intimate with many booksellers here, I shall have no difficulty in effecting purchases at cheap prices, wherefore I request you to hand me specification of the books you require and than I shall act for your interest.

I sincerely regret, that on receipt of your esteemed letter, I had already remitted to the despatcher the sum, incurred on Mr. Lowels wrecked box of books and was not able to ward off it. Till now I am however without any instruction from Mr. Lowel.

With greatest pleasure I learned your contentment at my service and hope you will soon give me again occasion to affirm you my endeavors for your interest.

Dear Sir

Acknowledging the receipt of your favor of the 15th March, I hope my last respects of 27th April together with the parcel books from Munchen has come safe to your hands.

In regard to the parcel sent [illegible] I hope you have learnt the particulars from my letter of 9th March a.c.

You had the kindness to inform me of your consignments, shipped by the Telegraph via New-York, which after arrival I shall treat conformably to your order. The Telegraph has arrived at Plymouth and cannot soon reach our port, till the blockade has finished.

I have noted your kind order upon copy of Kiss & Gottsche's Symp. Hepaticarum Prod. but it was impossible till now to effect it. This book however contains only five volumes, which I immediately send to you, as soon as mails can depart again without molestation of war.

Wishing soon to be favored again by your letters and commands, I am,

My dear Sir.

I had the honour to receive your favour of 15th June and hope my last respects of 25 July via England has safely reached you.

I have only noted, that you intend to remit to me with your next Bill or 60— as well as a box with copies of Jenisch Illust. vol 2 to place on sale in Germany and be assured, that I shall attend to your interest in the best manner.

To morrow the blockade of the Elbe is to be suspended, and then the Telegraph, which has stopped till this time in Cowes, together with a great number of other vessels, will be allowed to enter and I hope that I shall succeed in realizing your first consignment in a short time. My next will inform you details of this affair.

My best thanks for your kind order upon several books, which I have immediately effected and shipped on board the Rhode Island, which vessel will sail, when the water is free of molestation of war. You find annexed the invoice amounting Bco 71.1., which please place to my credit.

I shall receive from Prof von Schlechtendal in Halle I have adjoined and took the liberty to rebit your account for my charges with Bco 1—1.

Die Zeitschrift für wissenschaftliche Botanik will

but be published in the beginning of the next year, it may however be possible, that I receive it earlier and then you may depend upon my sending it by first Mail Steamer via Bremen to the address you gave me and wrapped as you wish.

I have learnt with pleasure, that in June next I shall be honoured by your agreable visit and am very happy then to get acquainted with you in person.

My Dear Sir

I refer to my last respects and am deprived of your favors since that time.

With this steamer via Bremen I send you the Fortsetzung für wissenschaftliche Botanik. The freight however is very high for such a small parcel I should say 3/. But a friend of mine is travelling to New York by this opportunity, and therefore I have prefered to depatch these books with him, that you may receive them free of postage. By the same form of Messrs Havemeyer & Schumacher in New York you will receive them.

Please give me credit for the amount of £6 14s 4d as per invoice enclosed.

The Telegraph has arrived and I am in hopes of your Semina Tellustata. My friend will make you acquainted with the sale as well as it will lead you of sale.

Dear Sir

I am in possession of your favor of the 27th Jany, and since that time I had not the pleasure to be honored again with your letters. I therefore fear that the mischance, which shall have met with your on inspection of a count is true, but I hope you will recover on arrival of this.

I have duly noted your draft in favor of Mr. von Martius. München and I shall honor it on presentation.

I am encouraged to realize your remaining copies of Genera Illustrata but for the moment it is impossible to meet with purchasers. You wish to keep your account full but that is by no means necessary.

When Mr von Martius has drawn upon me and it is then convenient to you to remit me the small sum, it will be perhaps the

simplest way for you to pay
the amount to Mr. William Franklin in
London who will send it to me, or as I know
that you do not like the transaction with Mr
Franklin please pay it to Messrs W. S. Hall
& Co. in London (Lower Thames Street), who will
do the same.

I have sent to Mr Putnam in New-York

My Dear Sir.

I am favored with your kind letter of Novbr 4th a.p. handing me bill of lading of Humboldt for a box of botanicals, which I have immediately forwarded to the various parties.

I have found among these a parcel, addressed to the royal Society of Berlin, but this direction was too relative and therefore I have got it back again. Then I have written to Messrs Dr Klotzsch & Dr Illig in Berlin & these friends will have the kindness trying to say me the society this parcel is destined for. I hope at the foot of this I can tell you the result and should it be not possible, then you will have the goodness and write me to whom I shall address the parcel in question.

Some days ago I have had a letter from Messrs G. P. Putnam & Co in New York, in which they say, that your account and mine are in such a disorder that they are not able to settle the same. To day I have written to these gentlemen & informed of the particulars; and now I hope soon to hear a final Apartment of this disagreeable affair.

Herewith take the liberty to hand you enclosed

Account Current of 1853, showing a balance of Bg 120.8 in my favor; please examine the same and carry it forward to New Account. I have debited you the item of Bancy 96.2 and hope it will in the meantime be in order. Without this sum Meyer G.S. Bertram & Co. debit me Bog 70.2 which I have entreat them to pay to you. I hope your next favor confirms me the regulation.

With my best sincerest wishes of the New Year and wishing you many returns of the Season I remain my dear Sir

Yours
very truly
G.J.C. Röding

The contents of the above mentioned parcel are for various parties and I Illig will be so kind to distribute the same. Please take notice of my having debited you the freight to Berlin and octroi with Bg 4.12

My Dear Sir!

Referring to my last respects of the 23d Janry. I have had the honour to receive your favor of the 12th ulto. and am very much oblig'd to you in regard to the boxes for Mr Hastings

I do not exactly know, indeed, how I shall recompense this kindness, you have shown me.

There is no name for this miserable behaviour of Messrs Putnam & Co, and I am in such a manner disgusted of these men, that I hope, on arival of these lines the affair with them will be settled, for I do not like to write their name once more in my books.

As to the unlucky boxes for Mr Hastings at Valdivia I entreat you to arrange with Mr Brower that he forward the same as soon a possible Steamer to the named friend who has already write to Europe, being very astonished of the non-arival

Please tell Mr Brower to charge forward-

effect such business, please occasion him to

Dear Sir!

I have duly received your kind letter of Septbr 12th, informing me, that my last respected of May 12th hasnt yet reached you, but now I think it in your hands, the contents of which replying the first part of your favor.

Regarding the valuable package by Gutenberg, I have learnt from ya with indignation the miserable behaviour of Messrs Donat in New York, I cannot conceive the motives that have the consignees occasioned to act in such a careless manner, and I regret the many troubles and the offence given to you by this inaction, which is shocking in the highest degree

I am writing to Messrs J. D. Donat by this Steamer, expressing my highest displeasure with their shameful conduct, ordering them to settle immediately the pending business with you and to take care of producing the lost parcels, else you would be under the necessity to recover its value by legal

prosecution, for which purpose I had
invested you with the necessary & certified papers,
which are sufficiently able to prove them guilty.

I hope after arrival of these lines this disastrous
thing will become finished by the named and in
future nothing more for you shall be consigned
to Messrs Donop, but I shall the bill of lading directly
to your address, for you are quite right, we are both
greatly tired of New York brokers.

In case Messrs Donop should not willingly
deliver the parcels for Gutenberg up Humboldt, I
beg to hand you herewith the bill of lading and
the letters of advice, proving them acknowledging
this conveyance, as they did not reclaim against it.

Dear Sir

I have received your esteemed favor of the 26th Septbr whose contents are duly noted, but I regret to see, that my last respects of Aug. 12th had at that time not yet reached you. I now hope that this as well as my last letter of Sept: 12th have in the meantime safely come to hands.

I feel happy to learn from you, that the unlucky affair with Messrs Doson has been arranged by amicable adjustment and thereby consigned to oblivion. In future I shall address all parcels for you in conformity with your order and prepay the freight here.

Some days ago I have heard by a freind of yours that parcels from you has been sent to the name by another mediation than mine.

With deep affliction I have hear this inform

mation, for I can not comprehend the reason of this, and shall feel much obliged by reading some words of you in regard to it.

I should painfully lament it, if you, in consequence of the affair with Mrs Doop, should have the intention, of dissolving a connexion, which has lasted so many years between us. Be assured that also in future there shall be no want of unremitting exertions on my part to acquire your approbation by due attention to any interest ye may be pleased to confide to me and I hope you will soon furnish me with an occasion to prove to you by the fact that I am not unworthy of your confidence.

Dear Sir.

I had the great pleasure to receive your favors of the 24th Novbr & 26th Decbr ult. and am very thankfully for the explanations in regard to the sendings by the agents of the Smithsonian Institution.

I cannot find fault with your having forwarded packages in this way, particularly as it is saving much expence & trouble, and should feel greatly obliged for your kindly making application to Mr Professor Henry in my favor, to appoint me one of the agents of the Smithsonian Institution. I think it would prosper for this Society to have an agent in Hamburgh, because this is the very place, the goods from the interior of Germany must pass to the transatlantic ports.

Occupied with the closing of my books I now have annexed an extract of your account current,

and not doubting but you will find it correct I beg you to transfer the balance, By 114.87 in my favor to new account in conformity.

Wishing you the accomplishment of all your desires for this year and begging you will preserve me your valued friendship and confidence as hitherto, I sincerely hope the new year may offer more frequent occasions for an active correspondence between us to indemnify us for the dulness of the past.

Dear Sir,

I am favored with your esteemed letters of May 17th & the 4th inst, and taking the liberty to pass over in silence the arranged contents of the first I hasten to reply to the latter.

It is very disagreeable and incomprehensible to me, that the box of books from Dr von Martius of Munich addressed to the Smithsonian Institution has not yet arrived. I beg to hand you enclosed a copy of my letter to Mr Dr Henry, together with copy of bill of lading and regret it extremely that this letter has been lost, particularly as this was the first business with this institution but I hope your influence and friendly relations to the Secretary, Mr Dr Henry will protect me, that this event not caused by my neglect will be charged to me, for I have done my utmost to effectuate this first business with all possible promptitude and hurry

The case in question has been forwarded on board the vessel Geneva, Capt Merryman to New York, and the original letter has been sent on by mail and the Duplicate by the vessel Geneva, address to Philadelphia. The bills of lading do not carry an address but "Order" for I did not think it necessary to send the Case to a firm in New York as the books for you are to be forward in the same manner

I will not fear that this delay has caused you inconvenience and hope by return of the post to hear of you that all is arranged and that the books have safely come to hand.

According to your wishes, I beg to hand you annexed Account current of the running year, showing a balance of $ 110.12 in my favor, which you will have the kindness to place to new Account.

Dear Sir,

I had the pleasure to receive your kind favor of the 12th April from which I learnt, that you accept the Bill from Prof. von Martius for 88 Bavarian florins. I have debited your account with Bco 100— for this draft.

The case per Pennsylvania has safely reached me and I have distributed the contents according to your directions.

With the same steamer I received from Mr. George Hunter, New York, on your order a box books for Mr. Julius Engelmann at Frankfurt on Main, which I have forwarded on without delay.

Both the cases here caused large charges as the forwarding agents at New York did not send the Bills of lading to me, but to another firm at this place, from which I was obliged to fetch the cases. I should therefore think it better

in future so you could engage
the New York houses to direct the bills
of lading to me.

Your notice to make more use of the
Hamburgh Steamers was very agreeable to me
and hoping soon to be honored again by your
favors I remain Dear Sir
